Standard Equipment/Optional Equipment

Standard Equipment

Linde twin drive pedals to control forward/reverse travel and braking
 Original Linde Load Control integrated in armrest
 Hydraulic suspended comfort-class seat with extensive range of adjustment
 Hydrostatic steering, kickback free
 High safety and stability ensured by Linde ProtectorFrame
 Anti-glare display with fuel gauge, clock, hour meter and service information
 Control lights on display for engine oil pressure, engine overheating, parking brake, audible warning signal for engine and hydraulic oil temperature, blocked intake filter and low fuel level
 Plenty of storage space for writing utensils, beverage cans...
 Air intake filter with integrated cyclone separator
 High-performance hydraulic filter concept, guarantees maximum oil purity and extends life of all hydraulic components
 LPG truck fitted with a two-way catalytic converter
 The mounting of the gas bottle is ergonomically designed for easy changing

Optional Equipment

Single drive pedal with direction selector on armrest
 Overhead guard can be upgraded to full cabine with roof, front and rear screens and doors (also available with tinted glass)
 Wiper-washers for front, rear and roof screens
 Further seats with additional comfort and adjustments
 Cab heater with integrated pollen filter
 Air Conditioning
 Radio or DAB+ radio
 Sun screens, illuminated clipboard, interior lighting, height adjustable steering column, terminal support
 Standard masts from 3,000 mm to 5,400 mm lift
 Duplex masts (full free lift) from 2,700 mm to 4,130 mm lift
 Triplex masts (full free lift) from 4,525 mm to 6,315 mm lift
 Integrated sideshift
 Integrated fork positioner
 Load backrest
 One or two auxiliary hydraulic circuits for all mast types

LPG truck fitted with accurate ultrasonic fuel level indicator for exchange bottles
 LPG volumetric fuel tank version with fuel level indicator at the display
 Superelastic tyres

New STANDARD features for the Evo models:

Variable displacement pump for best energy consumption
 Integrated diesel particulate filter for EU models with 55 kW
 New seat/armrest generation for outstanding ergonomics
 LEPS (Linde-Engine-Protection-System) as monitoring of motor oil pressure and level, temperature and level of the cooling water and temperature of the hydraulic oil
 Curve Assist for automatic speed adaption
 Intelligent drive dynamic modi now integrate lift hydraulic
 New development timing belt protection
 Enhanced steering axle
 Handhold for safe access at A-pillar

Alternative fork lengths
 Tilt cylinder- and roof protection
 Truck lighting, working lamps
 Audible reversing alarm, flasher and strobe beacons
 Mirrors
 Seat belt monitoring
 Linde original Blue Spot
 Camera and colour monitor
 Road traffic specifications
 Air precleaner
 Oilbath air precleaner
 Volumetric tank (LPG) with capacities of 70 l
 3-way catalytic converter (LPG)
 Unregulated catalyst (Diesel)
 CNG (natural gas) version
 Connected Solutions
 Custom paintwork

Other options available on request

Diesel, LPG and CNG Forklift Trucks
 Capacity 4000 - 5000 kg
 H40/500 *EVO*®, H45/500 *EVO*®,
 H50/500 *EVO*®, H50/600 *EVO*®^{394_02}

Safety

Linde ProtectorFrame: The protective overhead guard and its supporting frame together form a strong protective zone providing optimum safety and protection for the operator. Top-mounted tilt cylinders provide seamless and smooth control of the tilt movements for excellent load stability in all operating conditions. This unique design also enables slimmer mast profiles to be fitted for outstanding visibility.

Performance

Low consumption and exhaust level and nevertheless this truck range continues to impress with its excellent performance. Advanced engine and drive technology combined with the original Linde Load Control system enables the operator to use the trucks vast potential to maximise productivity. Precise fingertip control of all mast functions.

Comfort

Step in relaxed, leave again relaxed. Linde brings to this forklift a generously sized automobile-class workspace. A perfect interface between operator and truck has been achieved with the Linde ergonomic design concept. The spacious cab, comfort-class seat with adjustable armrest and intuitive controls allow fast and stress-free working.

Reliability

Proven in tough applications. Decoupling of mast and drive axle with chassis and cabine results in reduced shock and vibration. The enclosed robot-welded chassis is designed for maximum strength and durability. The resilient, maintenance-free mountings of the axles and tilt jacks cut downtime and operating costs.

Productivity

50 years of permanent optimisation of the original Linde hydraulic system leads to effective and cost-efficient work: The original Linde hydrostatic transmission requires no differential, no drum brake, no gearshift and no clutch. As a result, uptime is optimised, productivity is increased and maintenance costs are low.

Features

Linde twin accelerator pedals

→ Fast and smooth travel direction changes without constantly moving feet from one pedal to the other
 → Short pedal travel
 → No strain on ankles or legs
 → Operator maintains high efficiency levels

Linde Load Control

→ Mini levers for all mast functions mounted on an adjustable armrest
 → Precise and effortless fingertip control of all mast functions for safe, efficient load handling
 → Engine rpm is automatically synchronised to precisely match hydraulic demands

High-economy engine technology

→ Modern, advanced technology Diesel, LPG and CNG engines matched to Linde's demanding requirements
 → High torque for impressive and flexible performance
 → Extremely fuel efficient
 → Exhaust emissions significantly below the approved European limits

Linde operator compartment

→ Advanced functional design for optimum operator comfort and efficiency
 → Superb working environment with spacious leg and headroom
 → Excellent visibility of the load and surrounding environment through slim-line profile mast sections
 → Resilient mounting of mast and drive axle absorbs road shocks and vibrations
 → Quiet, stress-free working

Variable displacement pump

→ For mast functions and additional hydraulic circuits
 → Electrically controlled by Linde Load Control levers
 → The Linde pump only provides the required oil volume
 → Lower fuel consumption
 → Less noise
 → Extended oil change intervals

Linde clear-view mast

→ Superb visibility through the slim profile mast sections
 → Full load capacity available up to maximum lift height
 → Excellent residual capacities
 → Maintenance-free resilient rubber mounting of mast/drive axle and tilt jacks
 → Electronic control of tilt angle
 → Electronic cushioning of end travel for forward/back tilt
